

Jack Van Cleef

Jack Van Cleef has been a major contributor to the HHS athletic program for many, many years. One of Jack's contributions is the pole barn next to the stadium field. Jack served as general contractor on this project as well as scheduled and paid for the services of subcontractors. Additionally, he not only donated significant funds to the project but also donated his time by often working on it himself.

Additionally, Jack helped the wrestling program by purchasing and installing the wrestling lights in the gym. He also installed the wrestling and basketball line-up boards.

On the baseball diamond, Jack helped construct and install the dugouts and scoreboard. With the softball team, he purchased and installed the scoreboard, the storage shed and the batting cages. He also was a volunteer softball coach for many years.

Finally, Jack purchased and initially installed all of HHS' gymnastic equipment. Jack could also be found supporting the football program as a member of the sideline chain crew at Friday night home games.

It is because of his endless work and contributions to HHS that the Hall of Fame Selection Committee is proud to induct Jack Van Cleef to the Class of 2007 HHS Hall of Fame.
